

Fat Free and Fatal (Savannah Reid Mysteries)

By McKeve, G. A.

Kensington, 2008. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: In 2000, an unknown hacker brought down the websites of Amazon, CNN, Dell, E*TRADE, eBay, and Yahoo!, inciting panic from Silicon Valley to the White House. The FBI, police, and independent security experts launched a manhunt as President Clinton convened a cyber security summit to discuss how best to protect America's information infrastructure from future attacks. Then, after hundreds of hours of wiretapping, law enforcement officials executed a 3 a.m. raid and came face-to-face with the most wanted criminal in cyberspace: a fifteen-year-old kid whose username was "Mafiaboy." Michael Calce was an ordinary kid, hanging out with friends, going to school, playing basketball . . . and working from the PC in his bedroom. Then, suddenly, he became headline news. Despite requests from every major media outlet, he has never spoken publicly about his crimes until now. In the years since his attacks, Calce has watched the Internet grow less secure, more dangerous, and frighteningly criminal. Average computer users are increasingly the victims of fraud, identity theft, and even extortion. Millions of people stand to lose literally everything. But we can still safeguard ourselves on...
