In this book, leading PC hardware author and expert Mark Edward Soper not only shows students what they need to know to pass the A+ exams: he shows what they must know to succeed in the workplace as technical professionals. Starting from the ground up, Soper begins with the essentials, gradually helping students master increasingly complex topics and techniques. Soper covers every exam objective on the latest version of both A+ exams: Core Hardware and Operating Systems Technologies. His hardware coverage begins with basic primers on PC 'anatomy' and how PCs measure and transfer data.
