Pan Macmillan. Paperback. Book Condition: new. BRAND NEW, The Kraken Project (Main Market Ed.), Douglas Preston, NASA is building a probe to be splashed down in the Kraken Mare, the largest sea on Saturn's great moon, Titan. It is one of the most promising habitats for extraterrestrial life in the solar system, but the surface is unstable and dangerous, requiring the probe to be outfitted with artificial intelligence software. Melissa Shepherd, a brilliant programmer, has developed 'Dorothy', a powerful, self-modifying AI whose potential is both revolutionary and terrifying. When miscalculations lead to a catastrophe during testing, Dorothy flees into the internet. Former CIA agent Wyman Ford is tapped to help track down the rogue AI. As Ford and Shepherd search for Dorothy, they realize that her horrific experiences in the wasteland of the Internet have changed her in ways they can barely imagine. And they're not the only ones looking for the wayward program: the AI is also being pursued by a pair of Wall Street traders who want to capture her code and turn her into a high-speed trading bot. Traumatized, angry, and relentlessly hunted, Dorothy devises a plan. As the pursuit of Dorothy converges on a deserted house on the coast of Northern California, Ford faces the question: is rescuing Dorothy the right thing? Is the AI bent on saving the world .or on wiping out the cancer that is humankind?.
