Brand New Book ***** Print on Demand *****.Excerpt from Pernin s Universal Phonography: The Simplest, Most Legible and Rapid Shorthand Method in the World and the Only Strictly Phonetic, Light-Line, Non-Position, and Connective Vowel System in Use, for Schools and Self-Study The complete revision of our Universal Phonography has been a matter long contemplated; partly for the purpose of incorporating certain improvements which have been made from time to time, and partly to enable us to rearrange the subject matter to conform to ideas suggested by a long experience in teaching, and prepare new shorthand plates throughout the book. Until the present time such a revision has been made impossible by uncontrollable circumstances, and naturally it is with much satisfaction and pleasure that we are now able to present to the public a completely revised text, in the preparation of which neither time nor expense has been spared in an endeavor to produce the best text-book that modern thought and modern workmanship are capable of producing. In method of presentation this book is completely removed from any other shorthand text-book heretofore published. It will be found distinctive in every feature; and we are sanguine that it will be regarded by teachers and students as distinctly modern and much in advance of all other books of this nature.
