### Reviews

*This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Not illustrated. 1916 Excerpt: . such articles during so long a period, without calculation as to this contingency, might be disastrous to many houses, and the principle of customs legislation that permits this course should be of great concern to the importing community. From a study of the requirements relating to ship s manifest,<sup>2</sup> bill of lading,<sup>3</sup> and consular certificate of origin,<sup>4</sup> it will be clear that much original detail essential to a thorough audit of customs import transactions is lacking under the Argentine system. Provisions of pure-food law.--Article 42 5 provides: If alimentary products, adulterated or mixed with substances noxious to health, are presented for clearance at customhouses, the respective customs administration shall submit the same to the National Chemical Laboratories, and if this fact is established, the goods in question shall be destroyed, unless importer reexports the same within three days after notice. If reexported the respective administration shall specially mark the packages in such manner to preclude their clearance through other customhouses of the Republic. The labels on containers of alimentary products of animal origin must show clearly the name of the product, weight of contents, name of packer, place of origin, and date of packing. Section 6. Method of calculating duties in Argentina and typical clearances through Argentine customhouses. Though duties are levied in Argentine gold, in practice gold drafts or orders for their payment are purchased at the Banco de la Nacion with paper pesos., American cotton prints.--The following (A) illustrates an importation of 25,000...
