Were on the pay side of our fossil fuel economy. Its expensive. If we live in a state that doesnt produce natural gas, oil, or coal, our burden is even greater, because none of the money spent stays home. Places that produce fuel are enjoying a bonanza. High prices make production profitable from reservoirs that were thought to have no commercial value. Texas, Alaska and North Dakota enjoy a stream of money coming from the rest of us who have no choice but to pay. But maybe there is choice. In fact, its pretty clear there are better options than continuing to burn with abandon. Electricity for transportation electric cars is lower cost. Making the electricity from renewable sources for all uses is lower cost than just about every alternative except perhaps natural gas at todays depressed wellhead prices. Perhaps allows for some uncertainty in assessing the destructive environmental effects of producing and burning gas. How much methane leaks is an unanswered and crucial question. Regardless, there is real cost, and odds are it eventually...
