Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from How to Teach the Critical Difficulties of Arithmetic: To Accompany the California State Series Advanced Arithmetic; For Normal Students and Experienced Teaches The helps and suggestions given in this bulletin for teaching each of the topics of the State Series Advanced Arithmetic may be applied to the work of any arithmetic text. Teachers will find the miscellaneous questions and tests given at the end of each topic useful in many ways. They may be used as thorough reviews at the beginning of a new term or as tests for new pupils who enter late in the term. Such tests should help to determine the points in which a pupil's knowledge is deficient. The classification of the problems of pages 18 through 165 of the State text will be of much service to the teacher who is using this portion of the textbook. High school students desiring to enter the Normal School, will find that the bulletin outlines the scope and type of the arithmetic work with which students must be familiar before they can be entrusted with the teaching of this subject in the classes of the training school. Students will be expected to be familiar with the tests, suggestions and methods of work given in this book. Besides the subjects treated in this outline, normal students are expected to be familiar with the following 1. The system of addition combinations as given in chapter three of the State primary text. 2. The method of finding the quotient figures in long division. (Advanced State Text, pages 63-67.) 3. Additive method of subtraction. (Advanced Text, pages 21-22.) About the Publisher Forgotten Books publishes hundreds of...
