The word creation is generally being used to describe the formation of the worlds and all the species, yet the origin of each species, in the context of the creation requires that light be shed on the characteristics of each species. In his view humans are a superior race only in the sense that humans do have the capacity and competence to continuously strive to advance to unimaginable heights and greatness. The Author believes that a state of duality and double existence has been deliberately imposed on the living beings as a challenge to measure and test human s abilities and resolve to overcome any possible conflict and finding the true meaning of God and spirituality.
